

EDUCATION IS THE BEST MEDICINE.

BENEFITS

Effectiveness

Providing educational video on demand at the patient's bedside supports a hospital's quality of care initiatives and will help to improve patient satisfaction.

Integration

Video content is already digitized and ready to be installed on your hospital's system. wired.MD has partnerships with the leading providers of hospital television systems, allowing for quick and seamless integration.

Simple Licensing

With pre-approved broadcast rights and a 1 year minimum term, it's easy to sign up and integrate your new video content immediately.

Automatic Updates

Receive updates to licensed videos as soon as they are released. The wired.MD Update schedule is announced regularly via email.

UP TO DATE

wired.MD videos are thoroughly reviewed by experienced and accredited medical professionals. New and updated topics are added to the library annually and selected based on timely medical issues.
